

The Beau Quotient

Many women say that early on, their former boyfriends or husbands displayed behaviors that eventually became intolerable. If they had been more honest about these deal-breakers, they would have saved themselves much heartache.

This quiz is designed to help you take a hard look at your current beau's behaviors. If you don't have a current sweetheart, ask the questions about a previous long-term love.

To determine if you should keep dating a man, answer these questions. Put the score for each question in the box to the right. The items in parenthesis are just examples; he doesn't have to do all the items listed in the parentheses to get a good score.

1 = Never; 2 = Rarely; 3 = Sometimes; 4 = Often; 5 = Always (or nearly always)

Does He Show Respect for You and Others?	
1. Does he treat you respectfully, both in person and remotely? (He returns your phone calls promptly, responds to your questions, rarely raises his voice in anger.)	
2. Does he show respect for your relatives and friends? (He treats them respectfully, even if he may not like them.)	
3. Does he avoid teasing you about your sensitive issues? (He knows your vulnerabilities and doesn't exploit your feelings by reminding you of tender areas.)

A total of less than 80 means you need to release him as he doesn't have what it takes to be boyfriend (or husband) material. If you feel he might be willing to work on some of the items, let him know. Retake the quiz every 6 months as it's easy to be on one's best behavior for short periods.
